The Washington Merry-Go-Round

By DREW PEARSON AND
ROBERT S. ALLEN

WASHINGTON, June 10—Behind Admiral King's forthright order slashing navy red tape 50 per cent and ordering more navy officers out of Washington was an interesting comparison with the Japanese navy, conducted backstage by some of the president's advisers.

Americans, recently familiar with Japan, have reported that the Japanese navy is staffed by only about 1,000 personnel in Tokyo. In contrast, the navy department in Washington has more than 30,000 — not including the navy yard.

The Japanese navy also is reported to have cut red tape and government reports to the bone, and it gives widest latitude to commanders at sea. The U. S. navy also gives wide latitude to commanders in distant posts, such as Admiral Leary in New Zealand and Admiral Nimitz at Pearl Harbor. But in home waters, especially in anti-submarine warfare along the east coast, insiders say the navy has suffered from a constant stream of reports and orders to and from Washington requiring a tremendous staff for the paper work alone.

Now Admiral King offers promotions to officers who will decrease their Washington bureaus rather than increase them; who will write fewer instead of more reports; who will provide more personnel for fighting instead of red tape.

Gasoline Czar

The one man dynamo who runs the gas rationing system of the U. S. A. is a preacher's son and a former professor of economics. Though one of the most harassed men in Washington, he is constantly on the verge of breaking into a broad smile.

Only 35 years old, he has gray hair about the ears, thin hair on top, works so late into the night that his wife, mother of a newborn boy, seldom sees him. "I generally make the two a. m. feeding," he says.

Joel Dean was born in Vermont, schooled in California, and has a doctor's degree from Harvard, where he wrote a thesis on small loans. He spent a year as European manager of a travel bureau, two years as traveling salesman for International Business Machine, and seven years as teacher and research expert.

As a fellow economist, he always admired Leon Henderson, but never met him until he came to Washington less than a year ago.

To effect his own economy in gasoline, he formed a "Drive-In Club" with four other OPA officials. They take turns driving to the office from Arlington, Va., across the river.

When the brickbats fly in the OPA office, Dean recalls that his father, a Congregational minister, wanted him to be a missionary on a South Sea island.

"Many people," says Dean, "wish that I had fulfilled that mission."

Langer's Mimi

Senator William Langer was the picture of meekness as he sat silent and intent during debate on the committee recommendation that he was unfit to sit in the senate. However, the bulky, cigar-chewing North Dakotan has been anything but meek since the vote to accept him as a member in good standing. Some of his antics have colleagues banjo-eyed.

He almost broke up a Foreign Relations committee meeting the other day with a loud tirade against the Alaskan highway that was reminiscent of the outbursts of Huey Long. But Langer has cut his widest swath behind the scenes in the Privileges and Elections committee.

The committee is considering expense claims incident to the

• Side Glances

"The office called and said not to worry about a thing during your vacation—your substitute just swung that big deal you've been working on for three years!"

contest over Langer's seat. One item is \$30,000 for legal fees filed by lawyers for both sides. Another is a \$2,100 bill from Langer for "personal expenses," such as \$150 a day for food, plane trips, hotel rooms, etc.

But the committee was completely floored by still another claim made by Langer. In a letter to Senator Theodore F. Green of Rhode Island, committee chairman, the Dakotan demanded an additional "reimbursement" for "certain other expenses," chief among which were:

Maintaining "two households," in Washington and North Dakota. Railroad fare for his family to Washington. Langer contended that, because of the contest, his family had to remain in North Dakota "instead of driving to Washington with me in my car." "Private tutoring fees," for his daughter, Mimi, "whom I had to take out of school." Also, Langer claimed that Mimi's health "broke down" as a result of the charges made against him, and he feels that the taxpayers should foot the bill for her medical and living expenses at a health resort, plus transportation to and from Washington.

Army Hour Program

"Jamming" radio programs is one of the recognized weapons of modern warfare. But it is a two-edged sword, and the war department radio branch is ready to swing on the axis if the prize Army Hour, on Sundays, is jammed again.

Jamming by manufactured static or other interferences is feasible in the United States only on short wave broadcasts. The army hour features short wave talks from all over the world, made by such noted personages as Mme. Chiang Kai-shek, General MacArthur, General Wavell and others. The most recent case of jamming was during a talk by a high ranking army officer from

the Dutch island of Curacao. A piano banged loudly all the time he spoke.

Winston Churchill's latest speech which came on the radio immediately before the army hour, was jammed by a guttural Teutonic voice carefully observing Churchill's own pauses in an effort to escape detection.

These two cases of jamming were traced by triangulation to axis broadcasting stations. The army proposes to retaliate if this deliberate interference doesn't stop.

War Flashes

The Nazis have banned the printing of new editions of Christian catechisms and devotional books. Alleged reason is lack of paper. But while prohibiting these publications, millions of copies of a booklet on Nazi religion were distributed to German soldiers. . . Guerrilla warfare in Russia has become as highly organized that every third guerrilla now is armed with an automatic rifle. . . Courageous Dutch school teachers are following in the footsteps of their heroic Norwegian colleagues, who defied Nazi stooge Quisling. More than 1,200 Dutch teachers refused to teach Nazism and have been dismissed from their jobs.

Patrol Plane With
Ten Aboard Missing

PENSACOLA, Fla., June 10—

A navy patrol plane with 10 men aboard has been unreported since it took off on a routine training flight last Friday and is presumed lost in the gulf, officers at the naval air station announced Tuesday. The next of kin of the pilot, Ensign Malcolm W. Bird of Pensacola, and other occupants of the ship have been notified. (No crewmen from this area).

Smart Hat for Little Money

5362

By MRS. ANNE CABOT

If you have an important date with your best young man, appear in this mid-summer hat of glistening white. It's tops in prettiness! Takes just 2 skeins of white cotton yarn—the crown is made separately and sewn to the wide band. Two crisp fallie ribbon bows—one bright military red and the other royal blue—are sewn smack on the front! Make the hat in a pastel color or navy blue if you like.

For complete crocheting directions for the Cotton Yarn Hat (Pattern No. 5362):

Send 10 cents in COIN, YOUR NAME and ADDRESS and the PATTERN NUMBER to Anne Cabot, Sedalia Democrat-Capital, 211 W. Wacker Drive, Chicago, Ill. Enclose 1 cent postage for each pattern ordered.

My New Album, about which so many of you have inquired, is now ready. It is an attractive 32-page album of the lovely designs you have asked for and admired—needlework designs of all types—for all the family—for the Home and for gifts! The name of it is the "Anne Cabot Album." Send 15 cents today for your copy! Use Chicago address noted above.

British 'Sub'
Sinks Destroyer

LONDON, June 10—(P)—Britain's new submarine Turbulent has sunk an Italian destroyer and four merchant ships rushing supplies across the Mediterranean to the hard-pressed axis army in Libya, even as huge RAF bombers struck mighty blows at axis bases in Sardinia and Crete. These offensive actions in support of the British desert army of Gen. Sir Claude Auchinleck were announced today by the admiralty and RAF.

The Turbulent's depredations were in the central Mediterranean on the axis supply lines between Naples and Tripoli. At last two of the medium-sized supply ships were loaded to the gunwales. Although protected by two of Mussolini's sleek destroyers, the Turbulent sent both to the bottom and also sank one of the escorts—a

A third supply ship was sunk out of another convoy. A small merchant vessel, laden with explosives, also fell victim to the Turbulent in another action.

Nelson Back To
Boyhood Scenes

HANNIBAL, Mo., June 10—(P)—Donald M. Nelson, chairman of the war production board, came back Tuesday to the scenes of his boyhood, baseball-playing days at Hannibal, the Mississippi river city which claims him and Mark Twain as its two most distinguished sons.

Nelson was born here in 1888, on the "wrong side" of Bear creek, the son of Quincy Nelson, a "Katy" railroad fireman and Mary Ann MacDonald. His mother died when he was three years old and he was reared by his Scottish grandmother, a woman whose stout character rivaled that of Twain's famous Aunt Polly.

The homecoming for the "local boy who made good," first in the world of business and then in a world of war, began with a tour of defense plants. Nelson recalled that part of one plant once was a brewery. At another factory, where many of the employees were girls in slacks, he said, "That's going to be a very common sight."

After stopping at a hospital to see 73-year-old Mrs. Mary Ann O'Brien, an old friend, Nelson visited his birthplace, the home of his grandmother MacDonald and the schools he attended. The old high school, where he was graduated in 1906, now is used largely to train war production workers.

There was some confusion among members of the welcoming committee over the exact house where Nelson was born. Nelson said he wasn't sure he could find it but sight of the old frame

building brought the comment, "I can remember this very well."

The house now is the parsonage of the African M. E. church and Nelson was introduced to the minister, the Rev. P. A. E. Sneed.

At a banquet tonight, the WPB chief talked over old times with his former schoolmates, including eight members of his high school baseball team. They included the student manager, Walter B. Weisenburg, who now is executive vice-president of the National Association of Manufacturers in New York.

Following the banquet, Nelson spoke at a public mass meeting.

How Tanks Came of Age as Modern Weapons of War

Photographs by Signal Corps, U. S. Army

Father of all big tanks was British Mark VIII, 44-ton monster. Lumbering along at walking speed, behemoth spat death at World War I enemies from battery of machine guns. Mark VIII carried crew of nine, shook them up unmercifully since tracks had no suspension and tank itself took every bump.

Two turrets, each mounting a machine gun, featured T1, 23-ton tank built 10 years after Armistice. Heavily armored, T1 was among first of now generally favored medium tanks. Wooden tracks were another innovation. Modern tanks have rubber tracks.

Latest in tanks is U. S. Army's M-4. Weighing 28 tons, M-4 has rounded hull and turret that shed bullets, make it poor target for enemy. Mounted in middle of power-operated turret is 75-mm. cannon which can fire in 360-degree circle. Additional armament includes four machine guns. Speed is approximately 30 miles per hour.

Chas. Homan Ends Life By A Rifle Shot

Smithton Farmer Previously Had Truck Accident

Charles Homan, aged fifty-six years, farmer residing about two miles southeast of Smithton, fatally shot himself about 7:30 o'clock Tuesday evening with a .22 calibre rifle at his home while members of the family were outside doing the evening chores.

Mr. Homan left a note stating he "felt another spell coming on," but relatives and those knowing him best were at a loss to understand why such a message should have been written as they knew of no "spells," affliction, or illness that he might have suffered.

Tuesday morning Mr. Homan figured in an accident with a truck he was driving on a farm to market road and in which he suffered injuries to his face and head when thrown against the steering wheel as the truck plunged into a tree when he failed to make a proper turn at a curve in the road near his home. The truck was considerably damaged.

Given Treatment Here
Brought to Sedalia to the Bothwell hospital he was given treatment by Dr. M. P. Shy, returning to his home during the afternoon.

Coroner W. T. Bishop was called to the Homan home shortly after his passing about 7:45 o'clock, the wounded man living for about fifteen minutes after firing the fatal shot.

After making inquiry into the circumstances of the death Dr. Bishop decided an inquest would be unnecessary. The body was taken to the Neumeier Funeral home at Smithton to await completion of funeral arrangements.

Mr. Homan is survived by his widow, the former Miss Lillie Jaeger, to whom he was married June 8, 1926; two children of the home, Marjorie and Milo Homan. He also leaves one brother, Ray Homan of Portland, Ore., who will not be able to attend the funeral, and three sisters. Mrs. Jessie Wear, Ottaville; Mrs. Bessie Raifeisen, Sedalia and Mrs. Clara Smith, Smithton.

Funeral Thursday
Funeral services will be held at 2:30 o'clock Thursday afternoon at the Smithton Methodist church with Rev. E. J. Weiss officiating. The body is at the Neumeier Funeral Home, and will be taken to the family residence this evening. The casket will not be opened at the services. Interment will be in Smithton cemetery.

Damage Suit On In Benton County
A \$5,000 damage suit, filed by Mrs. Blanch Hanson, 1900 South Harrison avenue, against the City Light & Traction Co., is being tried in the Benton county circuit court today. The plaintiff, in her petition alleged her health was impaired from inhaling gas and gas fumes which she said escaped into her home after the defendant had installed a floor heater, and later a circulating gas heater.

The plaintiff alleges further she reported the fumes had escaped into her home following the installation of the floor heater and that the defendant removed said heater and installed the circulating heater, but fumes and gas continued to fill her home. The plaintiff upon investigation alleged she was informed the two gas heating units had been installed, and a "TV" connection used which was not properly plugged.

The case was filed in the Petition county circuit court on March 28, 1941 and a change of venue was taken from this court to the Benton county court on November 5, 1941.

Funeral of Dr. B. W. Vaughan

Funeral services for Dr. B. W. Vaughan of Columbia, who died in Kansas City Sunday night, were held in Columbia this morning, followed by services at 3:00 o'clock this afternoon at the Methodist church in Urbana, Mo., where he practiced medicine for a number of years.

He is survived by his wife, two daughters, Mrs. Logan Monsees of Enid, Okla., and Mrs. Howard Burns of Kansas City, and a son, Lieut. Comdr. Paul Vaughan of Pearl Harbor, Hawaii.

Logan Monsees, formerly of Smithton, who spent Tuesday with relatives here, in company with his father, Charles Monsees of Smithton and sisters, Mrs. W. B. Mountjoy of Sedalia and Mrs. O. G. Bolte of Smithton, attended the services at Urbana. Mrs. Logan Monsees went directly from Kansas City to Columbia.

Burial Frank Gregory
Graveside services for Frank Gregory, 75, of Bryson, Mo., who died last Monday night at the Bothwell hospital, were held at 1 o'clock this morning at the Green Ridge cemetery, with the Rev. Green officiating.

William Closser, 80, was found dead in bed at his room at 515 East Third street early this morning. Death was due to a heart ailment, Dr. W. T. Bishop, Pettis county coroner, found after viewing the body.

Mr. Closser, a native Pettis county man was born and reared in the Buncombe neighborhood. He had lived at the East Third street address for a year.

A message telling of his death has been sent to a sister, Mrs. L. R. Williams, of Kansas City. He also is survived by several brothers.

The body was taken to the Gillespie Funeral Home. Funeral arrangements have not been completed.

Carl Abbott's Case Dropped
The case of Carl Abbott, Negro, charged with violation of the state liquor laws, has been dropped from criminal docket. The case was tried in the April term of court resulting in a hung jury.

The trial was to have been held again in this term of court but was automatically cancelled with the state's nolle prosequi decision. Prosecuting Attorney L. P. Harned stated the reason for the nolle prosequi was because there was insufficient evidence to prosecute the defendant and obtain a conviction. At the time Jasper C. Caston, Negro state liquor inspector, had, according to his statement, made a "buy" but failed to have other witnesses present who would assist in conviction, and there being no additional evidence, Mr. Harned asked for dismissal.

Law Unenforceable
Missouri's anti-birdweed law is so vague and indefinite that it is unenforceable, Attorney General Roy McKittick has ruled.

The law was passed by the 1941 legislature, which declared that "it shall be the duty of any person x x x to control the spread of and to eradicate by methods approved by the state department of agriculture field bindweed." Failure to control the fast-spreading crop-destroying weed was declared a misdemeanor.

But the attorney general ruled the law's provisions were so general and vague that it would be almost impossible to enforce.

"The statute does not specify where the people are to eradicate such noxious weed, nor does it say how it is to be done," his ruling said. "It does state that it shall be done by methods approved by the state board of agriculture. However, what such methods are cannot be learned by reading the statutes."

The opinion was asked by Sam T. Evans, prosecuting attorney of Daviess county.

Time Is Obstacle
ST. LOUIS, June 10.—(P)—The length of time consumed in the sessions—not the low pay—is the chief obstacle to getting outstanding candidates for the state Jesse W. Barrett, former attorney general of Missouri and chairman of the St. Louis Board of Election Commissioners.

"Our legislatures do remarkably well considering the system under which they operate," Barrett declared recently.

"When business and professional men of high ability are serving on state boards and defense committees for no pay at all, isn't it ridiculous to say the reason they will not run for the legislature is because the pay is only \$5 a day?" Barrett asked.

He said he believed it is because they cannot afford the time—meaning the several months a legislative session usually runs. "And why does it drag?" he asked.

St. Louis lawyer continued. "Because our legislative procedure is the exact opposite of the procedure which American corporations have found to be practical and effective."

"In the case of state government, the executive officers ascertain the needs, study the problems, work out their plans and submit them to the stockholder's meeting for approval or veto."

Method Complicated
"In the case of state government, these plans originate with a large group of legislators of varying degrees of experience x x x take months of continuous session, after which they go home and leave to the chief executive the right to approve or veto all they have done."

"The annual stockholders' meeting of a great corporation usually takes only part of a day."

Warns Against Fly By Night Insurance Men

They Operate More In Unsettled Than In Normal Times

BY DON DOAN

JEFFERSON CITY, June 10.—(P)—The state insurance department warns Missouri insurance buyers against fly-by-night operators trying to cash in on war-time's uncertain prosperity by misrepresenting their policies.

"The war emergency has created an uncertain prosperity and in some respects may disturb the normal caution exercised by the purchasing public," Edward L. Scheufler, insurance superintendent, said.

"Ill-considered, hasty and promiscuous buying of anything of value must be discontinued. 'Fly-by-night' operators, misrepresenting facts and disseminating misinformation, are far more deadly in unsettled times than in normal times."

Ask For License
For their protection, Scheufler said, insurance buyers should: Make sure the agent is licensed and that his company has been admitted to do business in Missouri because "in the event of a loss or controversy, companies not admitted and not licensed, generally speaking, cannot be sued in the courts of Missouri and relief for the claimant or beneficiary can be obtained only with considerable difficulty."

Read carefully all advertising matter and all the proposed policy provisions—with special attention to mail order insurance, of which the department is now making a special study in an endeavor to eliminate unfair and misleading advertising.

Protective Feature
But don't become unduly disturbed because of the insertion of a war risk exclusion clause into newly written policies. This is a protective feature for good company management so as not to incur excessive losses—a safety move which has been invoked in war times since the days prior to the Civil War.

Scheufler invited any person having complaints or inquiries about insurance matters to write the state insurance department.

Children Lost In Field Of Tall Corn

Betty Parish, 10, daughter of Mr. and Mrs. James Fowler, of Huntsville, Ala., and her cousin, Donald Wilborn, 10, son of Mr. and Mrs. Forrest Wilborn, east of Sedalia, who in going from the home of their grandparents, Mr. and Mrs. J. M. Mawhorter, on route 3, to that of Charles Mawhorter, a mile away, became separated in the corn field. The little girl became confused and got lost, but the boy followed the corn rows through the field. Sedalia police officers were called and were preparing to join neighbors of the Mawhorters to look for the child when word came she had been found at the Yeater home three or four miles away.

If it took 90 days, who would ever attend?"

The drafting of legislation is a highly specialized science, Barrett said, recommending a system which he asserted has proved satisfactory in several states. Under this plan the governor and other state officers have, the year around, the aid of a board of non-partisan experts to formulate into bills whatever changes are needed in the law.

Shorter Sessions Needed
These bills, publicized before the legislative session, would give public opinion opportunity to crystallize for or against," he continued. "The legislature then could come into session and register its approval or its veto, and its work could be concluded in short order."

"If some such procedure could be devised and the legislative session shortened to a few days, service in the legislature would be changed from intolerable drudgery to a privilege and an honor, and the ablest Missourians would be eager to serve."

Negroes To Be Inducted June 27
Ten Negroes have been listed for the June 27 induction and notifications have been mailed to them, J. K. Kidd, Jr., clerk of the Pettis county selective board announced this morning. The call was for ten men instead of fourteen as originally announced.

Fifty white men will depart on Wednesday June 17 for Jefferson Barracks for induction, while the Negroes are being sent to Ft. Leavenworth for their induction.

Mr. Kidd said the call for the last of the month has not been received yet but a large call is expected. At least fifty white men, and possibly a call for more Negroes.

Farmers Must Take Care Of Equipment

Present Supply Of Tires And Parts All Available

COLUMBIA, Mo., June 10.—(P)—Farmers are going to have trouble from now on getting preference ratings on tires and repair parts for their trucks and machinery. The supply of tires and repair parts now on hand must last for the duration, C. W. Sheppard, chairman of the Department of Agriculture's War Board, points out.

Practically no new farm trucks will be produced from now on, and dealers are expected to run out of repair parts soon. For this reason, the War Board is doing everything possible to encourage "Share your truck" methods on farms.

"A breakdown in our wartime farm production program might well mean the loss of the war," Sheppard said. "We need to give our cars and trucks careful care and this means use them only when vitally necessary."

Using Food Stamps
The Agricultural Marketing Administration says that Missouri Blue Stamp users purchased approximately 100,500 dozen shell eggs and 80,200 pounds of butter with blue food stamps during April.

Considering Sheep Raising
Missouri farmers are becoming more and more tempted to go into sheep raising these days due to the heavy demand for wool and mutton plus the small grain requirements of the animals and their large use of pasture and good roughage.

There are several factors to be considered, however, before entering this business. In the first place, the very fact that sheep have a high sale value now means that it costs more to purchase ewes to start a flock.

An important consideration in starting a sheep flock is to have pastures near the house. Dogs and wolves take a large number of the animals if the pastures are located where protection is hard to maintain. It may even be necessary to corral sheep at night and at least several of them should have bells.

Good fences, shade, available water are all important to a profitable sheep-raising program. Regular treatment is necessary to lessen the damage from stomach worms, although change of pastures helps in this respect.

The greatest mortality rate among sheep is at, or soon after, birth, so a farmer intending to raise a flock must be able to be with his flock at the time of birth.

The parasite problem in Missouri becomes more critical each year, but effective treatment has been developed, so that the sheep raiser can protect his sheep and keep them in reasonable good health.

The usual treatment for stomach worms, the most common parasite, is bluestone or copper sulfate made up in solution. To get best results from this treatment, it should be started early in the spring and continued at intervals of 21 to 28 days until fall.

Nicotine sulfate added to the copper sulfate solution will help if tapeworms are present.

Parasites Flourishing
With temperature high and soil moist at this time of the year, poultry parasites are beginning to flourish. The effect of these parasites will not be noticeable now, but will show up when laying-time comes around.

With indications that egg requirements next year will be larger than they are this year, it is important to keep this parasite trouble at a minimum.

The best way to do this is to take the young pullets from the carefully-cleaned brooder houses where they have spent their first weeks, and put them on a clean uncontaminated range. For roosting at night, they should be provided with a cool ventilated range shelter. Use of this procedure should bring the pullets to the adult laying stage with the necessary vigor to stand up under heavy winter production.

Suggestion To Housewives
The War Production Board suggests that housewives save fats collected in cooking — fats that they will not use again—and take them to their dealers when they have a pound or more. Fats such as pan drippings and broiler drippings, and also those deep fats used in frying potatoes, fish, etc., will do the job. The meat dealer will weigh the fats brought in and pay the housewife the established price for it.

Moderate Losses On Stock Market
NEW YORK, June 10.—(AP)—Unsettled by a steep fall in American Telephone the stock market posted declines over a wide front today.

Losses were moderate in the general run of leaders. Telephone came back a little after an early drop of 4 points or so. Air Reduction, Westinghouse, Eastman Kodak, Bethlehem Steel and Philip Morris were down a point or more at the worst. Fractional declines were widely distributed in the final hour.

Dealings were approximately 350,000 shares.

Slightly higher in an uneven Curb were American Light and Traction, American Gas, Gulf Oil and International Petroleum. American Cyanamid and Brewster Aero were losers. Bonds were irregularly lower.

GREAT CIRCLE WARFRONT

War is rolling along the great circle route, which is actually a straight line over the earth's curved surface, the shortest distance between Japan and the U. S. west coast. Jap attacks on Dutch Harbor—almost midway along the great circle between Seattle and Tokyo—may be the beginning of a series of clashes in the northerly, thinly settled arena mapped above.

Fine Murray \$50 In Assault Case

Dean Murray and Russell Praull, charged with assault and battery at a "free-for-all" fight at Fairview tavern, Broadway and State Fair boulevard, Saturday night, have been fined \$50 and costs each.

Praull appeared before Justice of the Peace A. M. Harlan Monday afternoon and pleaded guilty. Murray was fined Tuesday evening by Justice Harlan. Three others are charged with participating in the fight, in which Forrest Poindexter, constable, was injured. They were taken to police headquarters Tuesday for further investigation, but no other hearing dates have been set.

The other three men implicated are Charles Young, who has been released on \$500 bond, J. D. Praull and Lloyd Noakes.

Down Thirteen Jap Planes

ALLIED HEADQUARTERS, Australia, Wednesday, June 10.—Thirteen Japanese fighter planes were destroyed or damaged in combat over New Guinea yesterday by Allied bombers which also started many fires among objectives at Lae and Salamaua, General MacArthur's headquarters announced today.

Two Allied planes were missing, the communiqué said. Allied bombers also started fires and scored hits on Japanese motor vehicles in an attack on Ermera in the Portuguese part of Timor Island northwest of Australia.

A Japanese submarine also was reported to have unsuccessfully attacked with gunfire an Allied ship off the southeast coast of Australia.

(The United States units presumably are in addition to the "Flying Tigers" of the American Volunteer Group commanded by General Claire Chennault which already is operating in China.)

(Chennault, together with Major General Lewis H. Brereton, Commander of United States air forces in India, and Lieutenant General Joseph W. Stilwell, American commander of Chinese forces in the battle of Burma, flew to Chungking last week for

conferences with Generalissimo Chiang Kai-Shek.)

Aid Reduced To Dependents

JEFFERSON CITY, June 10.—(AP)—The state Social Security Commission Tuesday allotted \$330,919 for aid to 32,339 dependent children in 14,098 needy families during June.

That was a reduction of 94 families and 211 children under last month's rolls. The average payment was virtually unchanged at \$23.47 per family and \$10.23 per child.

The number of families and cash allotments by counties included: Barton 61 families and \$1,097; Buchanan 422 and \$10,261; Greene 496 and \$11,489; Jackson 942 and \$22,527; Jasper 564 and \$12,672; Pettis 150 and \$4,124; St. Louis county 257 and \$6,720; St. Louis City 2,748 and \$68,291.

Resources Are Pooled For Victory In War

U. S. and United Kingdom Step Up Production

WASHINGTON, June 10.—(AP)—The factories and farms of the United States and the United Kingdom were pooled Tuesday in such a manner that their operations may be directed toward winning the war as if the two countries were one.

This was accomplished by the establishment of two joint boards, announced simultaneously by President Roosevelt and Prime Minister Churchill in Washington and London. One is a "combined production and resources board" and the other a "combined food board."

Donald M. Nelson, chairman of the war production board, and Oliver Lyttelton, British production minister now on a mission here, comprise the production and resources board. Secretary of Agriculture Wickard and R. H. Brand, head of the British food mission here, compose the other.

The production and resources board is to combine the production programs of the two nations "into a single integrated program, adjusted to the strategic require-

ments of the war, as indicated to the board by the combined chiefs of staff, and to all relevant production factors," President Roosevelt told Nelson in a memorandum. "The board is to take account of the need for maximum production, 'the need to reduce demands on shipping to a minimum, and the essential needs of the civilian populations.' It also is to adjust the 'combined production program to meet changing military requirements.'"

The duties of the food board, as outlined in a memorandum from the President to Wickard, are to investigate and formulate plans "relating to the supply, production, transportation, disposal, allocation or distribution, in or to any part of the world, of foods, agricultural material and equipment."

"In principle," the memorandum said, "The entire food resources of Great Britain and the United States will be deemed to be in a common pool, about which the fullest information will be interchanged."

Club Works On Clothes Project

The Ringen Workers 4-H Sewing club met at the home of Darlene Oehrke recently and worked on a clothes project, and after a program of poems recited by members, games were played.

Attending were Lois Eichholz, Gertrude Rehmer, Mariel Gieschen, Darlene Oehrke, the leader, Miss Ruth Gieschen and one visitor, Leona Montgomery.

Another meeting was held at the home of Mariam Wiechen. Sewing was done on slips and pajamas. The next article to be made will be the 4-H club dress. Refreshments were served at the close of the meetings.

Clifton City

Miss Challis Johnson

Miss Kathryn Bidstrup, who has been teaching school in the west for several years, but has taught in Wyoming the past winter, arrived here to spend her summer vacation here with her parents, Mr. and Mrs. B. I. Bidstrup and other relatives and friends.

Ernest Bidstrup, who was called into military service and left Chesapeake Bay in Maryland, two weeks ago, is located near his parents, Mr. and Mrs. Will Bidstrup, who received the word, state that he likes his work very well.

Mr. and Mrs. Ben Embree of Cheyenne Wells, Colo., who came here to attend the wedding of their son, LeRoy Embree to Miss Dorothy Herndon, by the Rev. Kokendoffer of the First Christian church, at his parsonage last Sunday afternoon came on to Clifton City and visited at their farm, west of town, with relatives and friends.

Mrs. Hubert Aggler and family were guests of her father, John Schuster of near Pilot Grove Sunday.

Mrs. Daisy Higdon, Mrs. Ad Johnson and daughter Challis Louise visited with friends in Warrensburg, Tuesday.

Mrs. Fred Marti was called to Windsor early Friday morning by the death of her brother, Charles Richardson, who died at his home there Thursday night. Mrs. Marti remained until after funeral services, which were held Sunday afternoon at 3 o'clock. While there, she visited in the home of her son, Hale Marti and family.

Mrs. Kate Diedrich of Boonville is visiting her sister, Mrs. James Vonnemann and Mrs. Vonnemann's son, Nelson here this week.

Miss Frances Hawkins, of Hale, Mo., who is a student at C. M. S. T. C. this summer, visited the weekend here with a friend, Miss Mary Bidstrup.

Miss Jo Ella Johnson spent from Tuesday until Thursday in Boonville on business.

Harry Hazlett, who has been called into military service left Saturday for Jefferson Barracks. His brother, Bill left Sunday as he has also been called into service.

Our Congressman Says—

Behind the scenes in Washington things are moving at a fast clip. You have read in your paper, or heard over the radio, about the most important developments. It is the policy of this news letter to give you the little generally unknown facts which make the great news of the day and sometimes keep it from being made or published.

Mexico in the war is an asset. Factors bringing about her involvement are (1) Sinking of her merchant ships and (2) a huge lend-lease gift from the U. S. and another "free trade" deal under which tariff on fresh Mexican fruits and vegetables (tomatoes, etc.) was abolished. This permits their importation for sale on the American market in vast quantities. Free trade is a provision insisted upon by the State Department in all lend-lease agreements and post war planning. To compensate the American farmer for loss of his market and to keep him in line a rain of checks will be continued.

War on the Balkans was declared by congress without a dissenting vote. This step was taken at the request of Russia which is hard pressed by troops of these Hitler tools. By the same token might we not be justified in insisting Russia get in the game against Japan and furnish us with some bases from which to raid our enemy?

Sugar rationing. The department of agriculture restricted the sugar producers in 1941 and paid them fifty million dollars in benefit payments not to grow this product. This year they have allotted fifty million dollars to the same producers not to restrict but rather to stimulate production. All this and done without any change in the AAA law. Quite a flexible agricultural policy, what? Most subsidy payments in both years have gone to great corporations. The U. S. Sugar Corporation received a benefit payment in one check of \$47,007.41. Benefit checks are going to California, Colorado, Utah, Wyoming, Louisiana, Florida, Hawaii and Puerto Rico.

Gas rationing is still in the cards for about July 1 in spite of

employment in Boonville, visited the weekend here with relatives.

Mr. and Mrs. Earl Sugard, of Kansas City, visited here last Sunday with Mrs. Sugard's parents, Mr. and Mrs. Frank Gramlich and family.

Mrs. B. H. Potter entertained the Lovelace Homemakers club at her home, in all day session last Thursday. In addition to members present the following guests attended: Mrs. R. L. Potter, Mrs. Mollie Potter, Mrs. Daisy Higdon and Mrs. Logan Siegel.

Sister Ann Roberts and Sister Ann Thomas, of St. Patrick's church, Sedalia are conducting a two-week vacation school here. The school is being held at the school house and twenty-three Catholic children are enrolled. The sisters are staying in the home of Mr. and Mrs. Oscar Dove.

Isaac Ellis, who resides on the Birt Knox farm, west of town, left Monday for Knob Noster, where he has government work.

Miss Margie Needy, who entered Business college, at Sedalia last Monday and is staying in the home of Mrs. Ollie Streit, visited at her home here Saturday and Sunday.

Mr. and Mrs. Bernarr Blumh and son of Smithton were guests of Mrs. Blumh's parents, Mr. and Mrs. Johnie Streit, here Sunday.

Mr. and Mrs. Logan Siegel and family were dinner guests of Mrs. Siegel's uncle and aunt, Mr. and Mrs. C. J. Eichholz of near Lake Creek, Sunday. Other guests in the home for dinner Sunday were: Mr. and Mrs. Ed Eichholz and son, Mr. and Mrs. Leonard Hoehns and family, and Mr. and Mrs. Barney Vinson of Sedalia.

Mrs. E. J. Hallahan entertained the Clifton City Homemakers club at her home Wednesday afternoon with seventeen members and one additional guest, Mrs. Mary Cramer. The president, Mrs. Willie Todd had charge of the meeting. The July meeting will be at the home of Mrs. O. T. Bridges. At the conclusion of the meeting refreshments were served.

Missing In Action

Private First Class Alva Jack Cremean, 22-year-old son of Mr. and Mrs. W. P. Cremean, 414 College avenue, Canon City, Colo., grandson of the late Mr. and Mrs. E. E. Embree, Beaman, and a grand nephew of William R. Embree, Beaman, has been reported missing in action since the attack on Pearl Harbor, December 7. He joined the marines in July, 1940, and was a marine guard on the U. S. S. Oklahoma at the time of the Pearl Harbor attack.

opposition of most members of congress including Speaker Sam Rayburn (D) of Texas, leader of the majority party. This shows just how little power congress has left itself. Intense pressure is, however, being brought to bear on the president who will clarify the matter soon.

Rubber rationing. Conflicting statements by the president and OPA officials about need for rubber and chances for substitutes leave the citizens (including congress) bewildered. Truth is, the situation has been badly handled and no one knows what the score is because too many are trying to keep the score.

General rationing of all civilian necessities is near. OPA is already putting out feelers for public reaction and to prepare the public for rationing of shoes, etc. Office of Price Administration now has a staff of 3,500 employees in Washington. It is requesting funds from congress for about 102,000 more. Remember, Leon Henderson, OPA boss, was advisor to Harry Hopkins in the days when WPA was in its stride.

Now with WPA on its way out as a big time agency, you can expect OPA to take over as the largest bureau in world history. Big difference is that about 100,000 of the OPA employees will be "policemen" who will regulate business and private lives on the smallest detail. High WPA officials are now doing the hiring for OPA here. Most drastic action of OPA to date is sending 25,000 businesses a form of "Financial Report" to be filled in and kept up to date quarterly with supplementary reports. Other businesses will receive the same form later. It is hard to see how many of the hundreds of questions asked are necessary for the stated purpose. There are so many of these reports it is doubtful if they can all be read. Admitted purpose of requiring them, however, is as a basis for government regimentation of every phase of business activity. Business men know this, investors know it. Result, no new businesses are being started and small men are being forced to quit. Implications of this revolutionary change are clear. A regular bookkeeping "blitz" Paste this in your hat—government control now justified by reason of the war will stay forever unless an independent congress is elected in November which will insure that people will get their rights back after the war. No emergency powers, even those given back in 1933 to cure unemployment, which isn't an emergency now, have been given back to the people's representatives in congress under the present administration.

Washington Wonderland. Mrs. Anna Rosenberg, power behind the throne in labor matters and the president's advisor to the War Labor Board, draws \$7,500 per year from the Social Security payroll. She has cleaned up a fortune by serving at the same time certain private firms having labor trouble which can be settled by WLB. Exposed by a congressional committee, she admitted it but is still on the pay roll of Uncle Sam. . . . Labor Secretary Frances Perkins' government paid chauffeur for her government car

is paid \$2,500 per year. . . . Commissioner F. H. Dryden, top WPA man in the nation has a government Cadillac with a \$1,860 chauffeur. . . . Jesse Jones, secretary of commerce has a government paid for Buick and a Cadillac limousine each with \$1,800 a year government chauffeur paid for by you. Strikes in war industries this week—nine. Time lost — 17,500 man days. Employees involved 5,700.

Query: If every citizen had been giving 10 per cent of his income to the Prince of Peace, would every citizen now have to give 10 per cent for the God of War?

Metal Removed From Child's Stomach

ST. LOUIS, June 10—(P)—Eight year old Ronald McCurdy will celebrate today the removal of a piece of metal two and one-half inches long and half an inch wide from his stomach.

The metal, swallowed six weeks ago, completed its journey through his body yesterday. Doctors first decided on surgery to

remove the metal but when it moved from the stomach to the large intestine they used special treatments to bring about natural elimination. More than 40 X-Rays were made during the stages of the journey. Young Ronald's physicians believed the metal piece was too large to be brought back through the throat. They were surprised that he could have swallowed it. He suffered no ill effects.

What You Buy With WAR BONDS

Life "floats" are replacing life boats in many instances in our Navy because of their greater safety and less likelihood to splinter or be affected by shell fragments. They are constructed of an elliptical portion of balsa wood, from which is suspended the float proper, carrying from 10 to 25 people.

There are provisions for food and water and some have automatic electric light equipment to aid in night rescue. The Life Float for 10 people costs about \$185.00 each. You can provide this added protection for the boys in our Navy by your purchase of War Bonds and Stamps regularly every pay day. Spend at least 10 percent of your income for War Bonds.

WHERE THE THRIFTY TRADE AND SAVE!

What You Buy With WAR BONDS

Equipment in clothing for our American flyers costs about \$280 for every aviator, so it takes a lot of money for our rapidly increasing air force. This clothing is especially manufactured of horse-hide jackets and trousers, fleece lined.

The kit also includes a "B-70" which is a complete jacket and trousers zipper suit, also made of horse-hide and is fleece lined. Two pairs of shoes, helmet, goggles and other lesser equipment complete the ensemble. Your purchases of War Bonds, at least ten percent of your income every pay day, will help buy these outfits for our flyers everywhere, for our Army and Navy needs thousands of them.

What You Buy With WAR BONDS

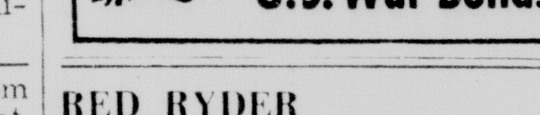

Tractors and motors will never wholly replace the Army Mule as a factor in the mobile units of our army. The Army Mule is a tradition and the "mule skinner" is a breed unto himself. Army Mules are used by the Field Artillery and the Cavalry in areas where the terrain is rough and tractors cannot operate.

Pack trains in mountainous sectors are often necessary and here the mule, slow but sure-footed, plays an important role. Our Army buys thousands of mules paying from \$175 to \$190 for each. The mule eats less, carries more, and some declare is smarter than the horse. Your purchase of War Bonds and Stamps helps pay for these Army Mules. Invest at least ten percent of your income in War Bonds every pay day. U. S. Treasury Department

Tie Game Is Called Due To Darkness

Sacred Heart And Hughesville Called In Seventh 3-3

Darkness caught one of the twilight Tuesday night games and it will have to be played over. The Sacred Heart church team and Hughesville battled seven innings with the final stanza the Hughesville team scoring three runs and putting the game into a 3 to 3 tie, and the game was called.

LaMonte Forfeits Game

The other two games which were played ended up in one-sided affair, Adco's of Eugene Field, trouncing the Sluggers of Eugene Field, 15-3, and Stewart Avenue Market upsetting the Dresden Rattlesnakes 14-1. The LaMonte Vikings failed to show up and forfeited their game to the Missouri Pacific Apprentice club.

The "dead-lock" contest was well played throughout with Reverend Father Stack having a two hit game, which hits came in the seventh when Hughesville crossed home plate with their three scores. Lower pitching for Hughesville had a fine game with three hits being made off of him in the third inning which manifested two runs for Sacred Heart.

Oswald Hits Homer

It was in that inning when Oswald hitting a home run scored Whitton for the tallies. Their third run came in the seventh on errors.

Thursday Games:

Missouri Pacific Ten vs. Pirates and Smith-Cotton All-Stars vs. Howard Roberts Specials at 6:15 o'clock; Green Ridge Odd Fellows vs. Post Office Ponies, at 7:15. Scout Troop No. 61 vs. Houstonia Blues at Houstonia under the lights at 9 o'clock.

Scores of Tuesday's games:

Adco 121 641—15
Sluggers 010 200—3
L. Williams and A. Beeler; Cook and Burlingame.
Dresden 000 000 1—1

Sports Roundup

By HUGH FULLERTON, JR.
Wide World Sports Columnist

NEW YORK, June 10.—If the all service vs. all stars ball game at Cleveland next month doesn't shatter the Municipal Stadium record of 80,000 attendance, Lieut. Mickey Cochrane, USN, will be sadly disappointed — And so will a lot of others. . . . Mickey reported the other day that the soldiers and sailors and marines weren't expecting to lose to the big leaguers and he hinted the search for good players might even go so far as to bring Mickey Harris, the former Red Sox flinger, back from the canal zone. The National leaguers haven't begun yet to whoop it up for the regular all-star game here, mainly because the managers' votes won't all be in for a couple of weeks, but a look at the batting averages leaves the idea that the National might field a 40-cent infield—Catcher's Blimp Phelps, Mickey Owen, Schnozzle Lombardi and Ray Lamano, each one playing on a dime.

Today's Guest Star

Ken Murphy, Richmond (Ind.) Palladium-Item: "The only real chance the Cincinnati Reds have of passing the Brooklyn Dodgers would be a taxi enroute to the ball park some afternoon."

Correspondents' Corner

Chuck McGuinness, who used to coach those swell football teams at Marblehead, Mass., and now is doing the same at the Dales, Ore., reports that "suicide basketball" is his invention and he started it under the name of "Assault and Battery Basketball" back in 1927. . . . The kids, he says, love it. . . . Chuck now has one called "Socker for Sockers," which he claims is even faster and tougher. . . . Byron Hollingsworth of the Tampa Times sends the sad news that the Palma Ceiz Golf club, which has been giving away free tees for ten years, has abolished the practice because of the scarcity of those little pegs. . . . The boys who have played with Holly says his jigger should be ruled out too, so as to conserve their dough.

Service Department

Cadet Roy S. Kline, former freshman footballer at Central Oklahoma State College, may have started something when he was named the best athlete in his class at the Enid Army Flying school. He has four brothers in service and the chances are they all will be trying to outdo him. When Enos Slaughter was absent

from the Cards' exhibition at Chautau Field, Ill., the Planesmen didn't mark him AWOL. He had a date with selective service officials in St. Louis. . . . The Norfolk naval training station will suffer a real loss when Sam Chapman leaves to become a flier.

Last pay day one apprentice seaman, who was due for leave and a long trip, collected only nine bucks. So Chief Specialist Chapman quietly slipped him an extra \$10.

Don Smith, St. Joe, Leads MSG Tourney

ST. LOUIS, June 10.—(P)—For the third consecutive year, Don Smith of St. Joseph posted low scores of 69 in the qualifying rounds of the Missouri state golf tournament but unlike former years he has a rival.

He shared medalist honors yesterday with Ken Heileman of St. Louis in the three-under-par tour of Sunset course. Heileman, who has never passed the second round in a tournament, is playing in one of his last before moving to Detroit.

Other par busters of the day who subdued the rugged back nine of the course were Pvt. Jim Black of St. Louis, defending champion, with a 70; Bob Cochran, St. Louis city champion and 1940 winner, Tom Praper and Ray Gates, St. Louis, all with 71s.

Two rounds of 18-hole match play are up for today and Thursday. The 36-hole finals are Friday.

Ed Smith Pitches In Hard Luck

Giants Curb The Reds 3-1; Pirates Beat Boston 10-2

BY JUDSON BAILEY
Associated Press Sports Writer

Special "days" for ball players have been frowned upon in the major leagues this year because of the war, but in the spirit of fair play the American League should quickly set aside an "Ed Smith Day" and give him a guaranteed non-disappearing victory.

The stout, blond southpaw, who was one of the leading pitchers in the league last year, has lost ten games this season without winning one and last night at Philadelphia he bumped into the most baffling setback of all.

He held the Athletics to two hits and yet was beaten 2-0 as the Chicago White Sox slumped into last place in the standings.

In the second inning Bob Johnson led off with a double, Dick Siebert walked and when Smith threw too late to catch Johnson at third after fielding Buddy Blair's bunt, the bases were loaded. One run trickled across on a double play. Then with one down in the fifth Pete Suder walked, reached second on an infield out, advanced to third as Pitcher Bob Harris scratched a single to deep short and scored when Luke Appling threw the ball wide to first.

In the eighth inning Joe Haynes, who hasn't lost a game, took up the burden from his teammate who hasn't won. But the White Sox were unable to stir up their usual rally for Haynes, although they made two of their seven hits off Harris in the ninth.

Yankees Beat Tigers

The New York Yankees contributed another change to the American League standings by beating Detroit 4-1 and knocking the Tigers out of second place. Rookie Hank Borowy pitched four-hit ball to achieve his fourth consecutive victory and Joe Gordon extended his hitting streak to 26 games while Buddy Hassett's string was halted at 20 games by Paul (Dizzy) Trout.

The Boston Red Sox moved ahead of Detroit with a 7-4 triumph over the rugged St. Louis Browns. Bobby Doerr led the Red Soxers with four hits, including a home and a double, and regained the league's batting leadership with .390.

Five Washington errors, two by rookie second baseman Ellis Clary, brought up last week from Chattanooga, helped the Cleveland Indians gain a 7-6 decision against the Senators in a 10-inning night game at the capital. Shutout relief pitching by Chubby Dean for the last three innings and his single to open the tenth also helped.

until tomorrow night, limiting National League activity to two games.

At Cincinnati each team was held to five hits but the New York Giants curbed the Reds 3-1. Bill Lohman of the Giants pitched shutout ball except for Rookie Ray Lamanno's seventh homer. His teammates scored all their runs in the first inning—routing Junior Thompson in the process.

At Pittsburgh the Pirates supplanted Boston in fifth place by beating the Braves 10-2. It was the eighth straight loss for Casey Stengel's crew, which was subdued on nine hits by Ken Heintzelman.

Argentine Makes A Protest

BUENOS AIRES, June 10—(AP)

—The Argentine government has protested to Germany and Italy over the "aggression" committed in the torpedoing of the Argentine tanker Victoria "without warning" in American waters, it was announced officially Tuesday night.

The Victoria was attacked last April off Cape Hatteras, but managed to reach port with the aid of a U. S. avl patrol.

Expect Increase On Tobacco Tax

WASHINGTON, June 10—(AP)

Members of the House Ways and Means committee predicted today that moderate increases in the excise taxes on cigars, cigarettes and smoking tobacco probably would be approved.

Tobacco-state members were reported ready to lead a fight against any increases, but one of them conceded they would lose because the committee already has raised the excises on liquor, beer and wines.

Secretary Morgenthau asked Congress last March for increases on tobacco taxes to produce about \$236,300,000 as follows:

Cigarettes—raise present \$3.25 a thousand tax to \$3.50 on 10-cent brands and to \$4.00 on 15-cent brands; revenue, \$188,600,000; smoking tobacco—from 18 to 36 cents a pound; revenue \$26,800,000; cigars, graduated increases designed to produce \$13,100,000; cigarette papers and tubes—substitute for the present graduated scale no exemptions and a tax of 1/2 cent for each 25 papers or tubes; revenue about \$7,800,000.

The committee late yesterday refused to accept a treasury suggestion that the present 1 1/2 cent federal gasoline tax be doubled, but decided tentatively to increase the lubricating oil levy from 4 1/2 to 6 cents a gallon. The treasury had asked for an increase to 10 cents.
